

About Us

A factory located in southern Taiwan, established in 2018, primarily serves industries such as automotive, electronics, aerospace, and consumer goods. We offer engineering assistance, parts production, reverse engineering, post-process handling, packaging logistics, all in compliance with international standards and globalized services. The factory aims to meet customer demands by providing high-quality products, competitive pricing, and accurate delivery times, ensuring the best service for our customers.

Enterprise Philosophy

"Customer-centricity" has always been our core value, and our enterprise philosophy is to enable humans to enjoy the achievements of industrial progress, leading to a comfortable and convenient lifestyle while ensuring environmental sustainability.

Machines & Process Capability

Processable Material & One-Stop Service

Forging

- Cold Forging
- Hot Forging
- Warm Forging
- Aluminum Forging
- Copper Forging

Casting

- Precision Casting
- Sand Casting
- Gravity Casting
- Aluminum Casting
- Steel Casting
- Lost-Wax Casting

Extruded Profile

- Round Bar
- Aluminum Extrusion
- Extraction
- Rolling Bar
- Plates
- Tubes

Surface Treatment

- Black Oxide
- Colorful Plating
- Zinc White Plating
- Electroless Nickel
- Anodizing
- Phosphate Coating Treatment
- Chrome Plating
- Electropolishing

Post-Processing

- Grinding
- Gear Hobbing
- Polishing
- Deep-Hole Drilling
- Wire Electrical Discharge Machining
- Knurling
- Laser Engraving
- Laser Cutting

Heat Treatment

- Quenching
- Tempering
- Carburizing
- Normalizing
- Stress Relief
- Thermal Refining
- Vacuum Heat Treatment
- Nitriding(GSN, LCN, QPQ)
- High Frequency Heat Treatment
- Ion Nitriding

Production Process & Quality Certificate
